Model Input

Question: What types of fruits are in the picture?

Text-only Rationale

The mixed variety of fruits suggests that this is a fruit platter. The small, round, light green items at the bottom left appear to be grapes.

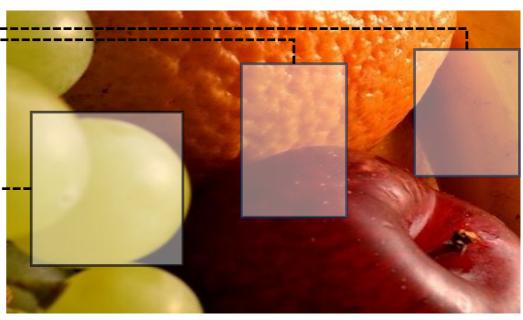

The textured orange skin <u>at the top</u> indicates this is likely an <u>orange</u>, while <u>a banana</u> rests beside it.

The dark red, smooth-skinned fruit on the right appears to be an apple.

Answer

Therefore, grapes, orange, banana, and apple are in the picture.

Model Input

Question: What types of fruits are in the picture?

Interleaved-modal Rationale

The several grapes grouped together and the jumbled assortment of different fruits suggest that this is a fruit platter.

The orange colored rind behind an apple indicates that there is an orange and an apple in the picture.

The sleek yellow peel off to the right clues at an unpeeled banana.

Answer

Therefore, grapes, orange, apple, and banana are in the picture.
